ABOUT ME

A fresh graduate with a bachelor's degree in ICT (Information and Communication Technology) and a CGPA of 3.74, enthusiastic about launching my career in web development. Equipped with a strong educational background, I have a genuine interest in web development to create aesthetic, dynamic and user-centric websites. Eager to contribute to innovative web projects, I am actively seeking opportunities to apply and expand my skills within the industry. As an active learner, my commitment to continuous learning positions me as a dedicated and adaptable entry-level professional, ready to make a meaningful impact and advance my skills in the field of web development.
