As a recent graduate with a bachelor's degree in BA-ICT and a commendable CGPA of 3.74, I am enthusiastic about launching my career in web development. Armed with a solid academic foundation, I possess a genuine passion for coding and specialize in crafting dynamic, user-centric websites with an emphasis on design aesthetics. Eager to contribute to innovative web projects, I am actively seeking opportunities to apply and expand my skills within the industry. My commitment to excellence and continuous learning positions me as a dedicated and adaptable entry-level professional, ready to make a meaningful impact and further my development in the field of web development.
